

OXYL-PRO®

Hand and Surface Disinfectant

AREA OF USE

- Surface disinfection
- Hand disinfection

METHOD OF USE

Hand Disinfection: Spray enough solution onto hands to cover all areas up to the wrist. Rub until dry. Do not use on visibly dirty or greasy hands – wash before applying.

Hard surface disinfection: Spray directly onto clean surfaces and leave to dry. There is no need to rinse. Surfaces that are soiled or dirty should be first cleaned with a proprietary cleaner.

Contents	Hydrogen peroxide (1.5%)
