

## Svenska

Denna bruksanvisning innehåller viktig information om hur X-Sense fjärrkontroll fungerar. Se till att du läser den här bruksanvisningen helt innan du installerar och använder fjärrkontrollen. Om du installerar denna fjärrkontroll för användning av andra, måste du lämna den här bruksanvisningen (eller en kopia av den) hos slutanvändaren.

### Introduktion

Tack för att du köpte vår fjärrkontroll till ert rökvarnsystem. X-Sense produkter förbättras och produktportföljen utvidgas ständigt, så besök gärna vår hemsida för att ta del av våra nyheter.

RC01 är en dedikerad fjärrkontroll för X-Sense rökvarnare XS01-W vilka är trådlöst sammankopplade. Enheten kontrollerar enkelt de sammankopplade rökvarnarna, vilket sparar användarna ansträngningen att sträcka sig upp och nå till taket för provning av rökvarnarna eller för att aktivera pausfunktionen. Det är skönt att slippa stå på stegar och balansera på stolar om

det är högt till tak. **OBS!** Denna fjärrkontroll passar inte några andra modeller än de som anges enligt ovan.

### Viktiga säkerhetsinstruktioner och riktlinjer

Håll inte in eller blockera testknappen under en längre tid än vad denna bruksanvisning rekommenderar. Tryck heller inte upprepade gånger utan avvänta tills rökvarnarna hinner agera. Ändra under inga omständigheter enheten utan använd produkten för vad den är tänkt till. Använd endast de angivna batterierna och se till att matcha polaritetsmarkeringen vid uppstart och batteribyte.

### Installation

Öppna den bakre kåpan genom att sätta in den medföljande nyckeln i skåran längst ner på fjärrkontrollens baksida och öppna. Avlägsna isoleringsfilmen på knappcells batteriet. Se till att batteriet är korrekt polariserat (matcha plus och minus med markeringarna) placera batteriet i läge och stäng locket.

### Paket innehåll

1 x Fjärrkontroll (batteri ingår)  
1 x Självhäftande tejp  
1 x Nyckel (för att öppna enheten)  
2 x Skruv  
2 x Plugg  
1 x Bruksanvisning

## English

This manual contains important information on how your X-Sense remote control works. Be sure to read this manual completely before installing and using the remote control. If you install this remote control for the use of others, you must leave this manual (or a copy of it) with the end user.

## Introduction

Thank you for purchasing our remote control for your smoke alarm system. X-Sense products are being improved and the product portfolio is constantly being expanded, so feel free to visit our website to take part in our news. RC01 is a dedicated remote control for X-Sense XS01-W smoke alarms that are wirelessly connected. The unit easily controls the interconnected smoke alarms, which saves users the effort of reaching up and reaching towards the ceiling to test alarms or to activate the pause function. It is nice to not have to stand on ladders and balance on chairs if the distance to the ceiling is high. **NOTE!** This remote control does not fit any models other than those listed above.

## Important Safety Instructions and Guidelines

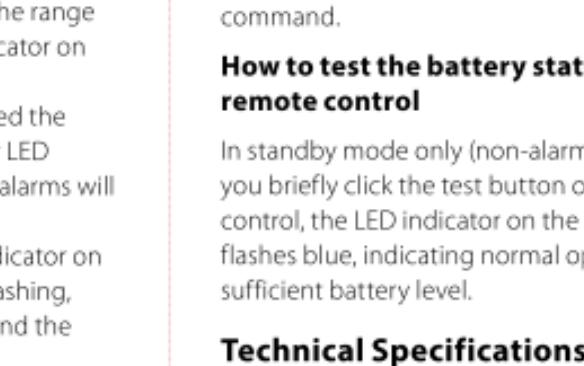

Do not hold or block the test button for a longer time than recommended by this manual. Also, do not press repeatedly, and be sure to wait until the smoke alarms have had sufficient time to react. Under no circumstances change the device, and only use the product for what it is intended for. Use only the specified batteries and make sure to match the polarity marking at start-up and battery replacement.

## Package Contents

- 1 × Remote Controller (Battery Included)
- 1 × Adhesive Tape
- 1 × Key
- 2 × Screw
- 2 × Anchor Plug
- 1 × Manual

## Product Overview

### 1. LED Indicator

## Operating Instructions

### Battery installation

Open the rear cover by inserting the supplied key into the slot at the bottom of the back of the remote control. Remove the insulating film on the button cell battery. Make sure the battery is correctly polarized (match the pluses and minuses with the markings), place the battery in position and close the lid.

## Pair the remote control with X-Sense XS01-W smoke alarms (purchased separately)

1. Hold down the test button within the range of the remote control. The LED indicator on the remote control will then flash.
2. After the smoke alarms have received the signal (takes about 7 seconds), their LED indicators will flash, and the smoke alarms will sound continuously.
3. Press the test/pause button on the smoke alarm four times, this unit will beep once and the red LED will flash slowly, indicating that it has entered pairing mode and is waiting for a new unit to be added.
4. Press the test/pause button on the remote control twice, and the LED flashes quickly, indicating that it is now searching for a device to connect to.

**NOTE!** Never hush alarms that you do not know the origin of, and investigate before silencing. During an alarm condition, click on the hush button once and all devices paired with the initial smoke alarm will be silenced. Press again to

## Test the wireless connection between the smoke alarms

silence the smoke alarm that initiated the alarm. The LED on the remote control flashes blue for each press to confirm that it has received the command.

## Troubleshooting

### Note!

The range of the remote control depends on many factors. The operating distance varies depending on the actual operating environment or radio environment factors from other electronic devices in the vicinity. Avoid communication problems or interruptions by thinking about anything that may affect the radio communication. Electromagnetic waves can be generated by a variety of devices such as televisions, induction cookers or microwave ovens.

## Importer

X-Sense Europe B.V.  
Parellaan 2H  
2132WS Hoofddorp  
Netherlands

## Distributor and Service

## Environmental Protection

Electrical waste shall never be disposed of with normal household waste. Recycle the unit and batteries where recycling facilities are located. Contact your local authority or dealer for advice on recycling.

## Technical Specifications

Transmission Frequency	868 MHz
Remote Control Range	15 m
Operating Temperature	0-50 °C
Battery Type	3 V CR2032 Lithium Battery
Battery Lifetime	1 year

## Hush smoke alarms

Just press the hush button to silence the smoke alarms when there are alarms for a known reason, such as fumes from cooking, steam, or the like, which may cause disturbing false alarms.
